

# PASOANA

Clarinet Pickup Microphone

## MK Series

### INSTALLATION INSTRUCTIONS

---

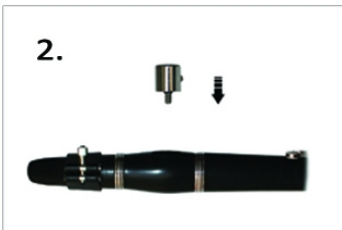

Installing your pickup is a simple process, however, it is strongly recommended to be done by an expert, using the correct equipment.

1.

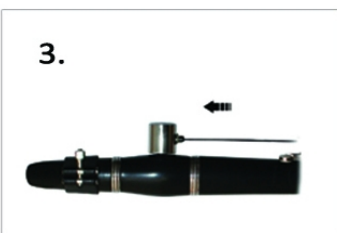

Using a 5.5mm drill bit (M6 thread) drill a hole at a 90° angle on the widest part of your barrel all the way to the centre and clean out the hole properly

2.

Screw the pickup into the hole drilled, making sure you do not over tighten

3.

Connect to your equipment using the cable provided
